However, to ensure that the appropriateness of the insured's performance of duties is not impaired, the policy does not cover damages arising from the cases caused by actions taken in the knowledge that the action violates laws or regulations. If Ms. Takayo Hasegawa is elected and appointed as Director, she will be insured by the policy. The Company plans to renew the policy with the same content with her at the next term of renewal.

1. Corporate Governance

(1) Corporate Governance Structure

The Company transitioned to a company with an Audit & Supervisory Committee from a company with an Audit & Supervisory Board pursuant to a resolution passed at its 123rd Ordinary General Meeting of Shareholders held on June 26, 2019, with a view to increasing the efficiency and speed of business execution by delegating substantial authority for the execution of business operations to Executive Officers, thereby further enhancing deliberations on important themes, such as management strategy, by the Board of Directors and strengthening auditing and supervisory functions with the Audit & Supervisory Committee playing a critical role. In addition, by having clearly defined the authority and responsibility of the persons responsible (Executive Officers in charge) for respective segments that are aligned with the Group's business fields and strategies (Energy and Infrastructure Operations, Communication and Industrial Device Operations, Electrical Equipment and Components Operations, and New Business Operations), we are promoting further enhancements to the revenue structure, which is no longer defined by individual business operating companies, and efficient management based on the performance indicator Return On Invested Capital (ROIC) and others.

Specifically, answers to a questionnaire given to all Directors are used to share evaluation results and issues with the Board of Directors, which then engages in constructive debate on the ideal state of the Board of Directors going forward.

An overall analysis of the results of the questionnaire for the fiscal year under review confirmed that the operation of the Board of Directors is being conducted appropriately by the Chairman of the Board of Directors, the Company is being managed largely appropriately in an atmosphere of candor and openness, and that the effectiveness of the Board of Directors of the Company has therefore been broadly ensured. Regarding many of the questions that had been raised previously with regard to items for deliberation, such as insufficient examination and deliberation regarding risk management and internal control, an increase in responses indicating that the situation has improved since the previous questionnaire is considered to show that various measures aimed at improving these issues were effective.

On the other hand, there is an awareness that further examination is needed. For operation of the Board of Directors, it is needed regarding improvements to the selection of discussion topics for achieving efficient operation while enhancing deliberation of matters related to the broader direction of the Company, such as management strategy, etc. Moreover, for matters for deliberation, it is needed regarding revisions of the performance-linked remuneration and the evaluation of the effectiveness of the Board of Directors. We will continue working to make improvements.
