In Recognition of Our Award: Decades of Commitment to Quality Management

The "Quality Choice Prize" awarded to TOTOKU recognizes companies that have implemented highly effective quality management systems characterized by strong ethics and steadfast innovation, achieving substantial results in their business activities. TOTOKU has long acknowledged the importance of quality management in product manufacturing and obtained ISO 9001 certification for Quality Management Systems from the International Organization for Standardization (ISO) in 1995. Since then, we have consistently advocated for quality management and quality assurance through ongoing improvement initiatives across our domestic and international group companies, particularly in the design, development, and manufacturing of wires, heater products, processed cables, and wire-processed products.

We perceive this award as a testament to TOTOKU's globally recognized efforts over many years. As we strive to expand into global niche markets, our unwavering belief that "quality is the greatest value we can offer to our customers" continues to guide us. We have been dedicated to listening attentively to our customers' voices and co-developing top-quality products and services that meet their needs.

Encouraged by this award, we remain committed to further enhancing our quality improvement initiatives and delivering products and services that contribute to our customers' value creation.
