#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SWCC SHOWA HOLDINGS CO., LTD. and Consolidated Subsidiaries

#### 1. Basis of Presentation

The accompanying consolidated financial statements of SWCC SHOWA HOLDINGS CO., LTD. (the "Company") and its consolidated subsidiaries (collectively the "Companies") have been prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards, and have been compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Law of Japan.

In addition, the notes to the consolidated financial statements include information which is not required under accounting principles generally accepted in Japan. Certain reclassifications have been made to present the accompanying consolidated financial statements in a format which is familiar to readers outside Japan.

#### 2. Summary of Significant Accounting Policies

#### (a) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its consolidated subsidiaries. In preparing the consolidated financial statements, all significant intercompany transactions, account balances and unrealized profits or losses among the Companies have been eliminated. In the elimination of investments in consolidated subsidiaries, the assets and liabilities of the consolidated subsidiaries, including the portion attributable to minority shareholders, are recorded based on the fair value at the time the Company acquired control of the respective subsidiaries.

Differences between the cost of the investments in consolidated subsidiaries and the underlying equity at fair value of dates of acquisition have been amortized by the straight-line method over a period of five years.

The equity method of accounting has been adopted for investments in the major affiliated companies over which the Company exercises significant influence in terms of their operating and financial policies.

The total assets, retained earnings, net sales and net income (loss) of the unconsolidated subsidiaries and affiliated companies which are not accounted for by the equity method in the aggregate were not significant in relation to the corresponding consolidated balances of the Companies.

The number of the consolidated subsidiaries at March 31, 2016 is 23, listed as follows:

#### (b) Foreign Currency Translation

Assets and liabilities denominated in foreign currencies are translated into Japanese yen at applicable exchange rates at the balance sheet date, and differences resulting from the translation are included in other income or other expenses in the consolidated statements of income.

The assets and liabilities of foreign consolidated subsidiaries and affiliates that operate in local currency are translated into Japanese yen at the applicable exchange rates at the balance sheet date, except for the components of net assets excluding minority interests which are translated at their historical exchange rates. Income and expense accounts are also translated at the applicable exchange rates at the balance sheet date. Differences arising from the translation are presented as translation adjustments and minority interests in accumulated other comprehensive income of its consolidated financial statements.

#### (c) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, cash in banks which is readily available and short-term investments with maturities of three months or less when purchased which can easily be converted to cash and are subject to little risk of change in value.

#### (d) Inventories

Inventories are primarily stated at the lower of cost determined by the average method or net realizable value. Inventories of certain consolidated subsidiaries are stated at the lower of cost determined by the moving average method or by the specific identification method or net realizable value. When the costs exceed the net realizable values, inventories are written down to the net realizable value.

#### (e) Investment Securities

Marketable securities classified as "other securities" are carried at fair value with changes in unrealized holding gains or losses, net of the applicable income taxes, included directly in net assets. Non-marketable securities classified as "other securities," which have no fair values, are carried at cost determined by the moving average method. Cost of securities sold is determined by the moving average method.

#### (f) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is calculated by the straight-line method over the estimated useful lives. The main estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	31 years (3 - 50 years)
Machinery and vehicles	10 years (2 - 14 years)
Equipment and tools	5 years (2 - 15 years)

#### (g) Intangible Assets

Intangible assets are amortized by the straight-line method over each of their estimated useful lives. Especially, computer software for internal use is amortized by the straight-line method over its estimated useful lives of 5 years.

#### (h) Leases

Depreciation of finance lease assets that transfer ownership of the assets, mainly office equipment is calculated by the same method applied for property, plant and equipment.

Finance leases, the agreements of which do not include the transfer of ownership, are accounted for in the same manner as ordinary purchase transactions of fixed assets and are depreciated by straight-line method over the respective lease terms with a zero residential value. While, finance leases, the agreements of which do not include the transfer of ownership and started on or before March 31, 2008, are accounted for as operating leases.

#### (i) Allowance for Doubtful Accounts Receivable

The allowance for doubtful accounts receivable is provided based on historical default rates and additional estimated uncollectible amounts to cover specific doubtful accounts receivable.

#### (j) Retirement Benefits

#### (1) Method of attributing benefits to periods of service

When calculating retirement benefit obligations, the straight-line basis is used for attributing expected retirement benefits to periods of service.

#### (2) Method of expenses for actuarial gains and losses and past service costs

Past service cost is amortized on a straight-line basis over certain periods within the average remaining service lives of employees (mainly 13 years) from the year in which it arises.

Actuarial gains and losses are amortized on a straight-line basis over certain periods within the average remaining service lives of employees (mainly 13 years) from the year following that in which they arise.

#### (k) Provision for Retirement Benefits for Directors and Statutory Auditors

To provide for the future benefit payment for directors and statutory auditors, the Companies have provided accrued retirement benefits based on their internal regulations.

#### (1) Provision for Loss on Construction Contracts

Provision for loss on construction contract is provided at the estimated amount for anticipated losses on the construction contracts in progress.

#### (m) Provision for business structure improvement Expenses

Provision for business structure improvement is proved based on an estimate of business structure improvement expenses.

#### (n) Revenue and Cost of Construction Contracts

The Company recognized revenue and cost of construction contracts under the percentage-of-completion method if the outcome of the construction activity is deemed certain during the course of the activity. Otherwise, the Company recognized revenue and cost upon completed-contract method. The percentage of completion is calculated at the cost incurred as a percentage of the estimated total cost.

#### (o) Derivative

The Companies use foreign currency forward exchange contracts and interest rate swap agreements to hedge the risk of fluctuations in foreign currency exchange rates and interest rates, respectively. Gain or loss on changes in the fair market values of the derivative financial instruments which meet certain criteria as hedges is deferred on the balance sheet until gain or loss on the hedged items are recognized.

However, foreign currency forward exchange contracts, which meet certain conditions, are accounted for as a part of translating foreign currency monetary assets and liabilities in the consolidated balance sheets.

In case where interest rate swap agreements are used as hedges and meet certain hedging criteria, the net amount to be paid or received under the contract is added to or deduced from the interest on the assets or liabilities for which the swap contract is executed.

Since commencement of hedge contracts, the Companies have assessed the effectiveness of each hedge contract by comparing the total cash flow fluctuation or market fluctuation of hedging instruments and hedged items.

#### (p) Consumption Taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

#### (q) Income Taxes

Deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws which will be in effect when the differences are expected to reverse. The companies in Japan file the consolidated tax return. Overseas consolidated subsidiaries are subject to income taxes in the countries in which they operate.

#### 3. Accounting Change

Application of accounting standard for corporate combination

Effective from the fiscal year ended March 31, 2016, the Company has applied the Accounting Standard for Corporate Combination (ASBJ Statement No. 21 issued on September 13, 2013; hereinafter the "Corporate Combination Accounting Standard"), the Accounting standard for Consolidated Financial statements (ASBJ Statement No. 22 issued on September 13, 2013, hereinafter the "Consolidated Financial Statements Standard") and the Accounting Standard for Business Divestitures (ASBJ Statement No. 7 issued on September 13, 2013; hereinafter the "Business Divestitures Accounting Standard"). As a result, if the Company continues to control the

subsidiaries, the difference caused by changes in ownership interests in subsidiaries is recorded as a capital surplus and the acquisition-related cost incurred are recorded in the same fiscal year. For the corporate combinations which take place on and after the beginning of the fiscal year, the revision of purchase price allocation of temporary accounting treatment should be recorded in the same fiscal year of corporate combination. In addition, the presentation of "Net income" has been changed, and the presentation of "Minority interests" has been changed to "Non-controlling interests". The consolidated financial statements for the previous fiscal year have been revised to reflect these changes in presentation.

The Corporate Combination Accounting Standard, etc., in accordance with the transitional treatment specified in item 58-2(4) of the Corporate Combination Accounting Standard, item 44-5(4) of the Consolidated Financial Statements Standard and item 57-4(4) of the Business Separation Accounting Standard, are applied from the beginning of the fiscal year.

The impact on the financial statements of the fiscal year under review is not significant.

The impact on per share information is shown in the pertinent section.

#### 4. U.S. Dollar Amounts

For the convenience of the readers outside Japan, the accompanying consolidated financial statements are presented in U.S. dollars by translating all Japanese yen amounts at the exchange rate of \(\frac{\pmathbf{\frac{4}}}{112.68} = \text{US}\$1.00 prevailing on March 31, 2016. This translation should not be construed as a representation that the Japanese yen amounts actually represent, or have been or could be converted into U.S. dollar amounts at the above or any other rate.

#### (b) Dividends

There were no dividends paid to owners of the Company for the years ended March 31, 2015 and 2016.

#### 14. Selling, General and Administrative Expenses

The breakdown of "Selling, General and Administrative Expenses" for the years ended March 31, 2015 and 2016 was as follows:

	2015	2016	2016
	(Millio	ons of yen)	(Thousands of
			U.S. dollars)
Shipping charges	¥1,354	¥1,345	\$11,936

Research and development expensed included in "Selling, general and administrative expenses" and manufacture costs for the year ended March 31, 2015 and 2016 amounted to ¥993 million and ¥245 million, ¥830 million (US\$7,366 thousand) and ¥216 million (US\$1,917 thousand), respectively.

#### 15. Impairment of Fixed Assets

For assessment of impairment of fixed assets, the Companies group idle assets and leased assets based on an individual asset, and other assets based on the categories used in the company's managerial accounting, where gain or loss is periodically monitored.

In relation to the leased assets, their market value has remarkably fallen against their carrying amount and the book value of the assets was reduced to the recoverable amount.

In relation to idle assets, since sale of the assets has been decided, or their market value has remarkably fallen against their carrying amount, the book value of the idle assets was reduced to the recoverable amount.

In relation to seismic isolation device manufacturing equipment, overhead transmission line manufacturing equipment, communication cable manufacturing equipment, electric power cable manufacturing equipment, wire harness manufacturing equipment, rubber coated wire manufacturing equipment and winding wire manufacturing equipment, the profitability from the business has been worsened and the book value of these assets was reduced to the recoverable amount.

The recoverable amounts are determined at their net selling prices based on the published land price as for leased assets and on the estimated selling prices or published land price for idle assets. For the communication cable manufacturing equipment, the recoverable amount is the value in use, which is equal to net future cash flow discounted at 2.34%. For the seismic isolation device manufacturing equipment, overhead transmission line manufacturing equipment, electric power cable manufacturing equipment, wire harness manufacturing equipment, rubber coated wire manufacturing equipment and winding wire manufacturing equipment, the recoverable amounts are the net selling prices, which are stated at the fair market value.

The amounts written down were recorded as losses on impairment of fixed assets. The breakdown of losses on impairment of fixed assets was as follows:

The "Act for Partial Revision of the Income Tax Act etc." (Act. No. 15 of 2016) and "Act for Partial Revision of the Local Tax Act etc." (Act. No.13 of 2016) were officially enacted in the Diet and, accordingly, the corporate tax applicable to the Company and its domestic subsidiaries will be decreased effective from April 1, 2016. Corresponding to this change, the statutory tax rates applied in calculating deferred income taxes are reduced from 33.1% to 30.9% for the years beginning April 1, 2016 and April 1, 2017. For the year on or after April 1, 2018, the statutory tax rate will be reduced to 30.6%.

As a result of this tax rate change, deferred tax liabilities decreased by \(\frac{46}{5}\) million (US\\$577 thousand), and income tax-deferred decreased by \(\frac{48}{48}\) million (US\\$426 thousand). The variance of investment securities revaluations increased by \(\frac{416}{16}\) million (US\\$142 thousand). Meanwhile, deferred tax liabilities related to revaluation decreased by \(\frac{417}{48}\) million (US\\$1,748 thousand), and the variance of land revaluation increased by \(\frac{417}{48}\) million (US\\$1,748 thousand).

#### 17. Financial Instruments

#### (a) Policy for financial instruments

According to the fund management policy of the Company, temporary surplus funds will be invested into the highly secured financial assets, and fund procurement is primarily made by bank loans. Derivative transactions are only used for hedging risk of the significant fluctuations in interest rates and foreign currency exchange rates, not for speculative purpose.

#### (b) Financial instruments and accompanying risks

Trade notes and accounts receivable are exposed to customer credit risk. Trade receivables in foreign currencies and foreign-currency loans among the Companies are exposed to exchange rate fluctuation risk, which is hedged through foreign currency forward exchange contracts. Investment securities are composed primarily of equity securities of customers and exposed to the market value fluctuation risk.

Trade notes and accounts payable normally have payment terms of less than one year. Although part of the above trade payables and foreign-currency borrowings are exposed to the risk of exchange rate fluctuation, they are constantly controlled within the amount of foreign-currency trade receivables. Long-term debts, which have maturity dates within seven years, are primarily utilized to secure financing for equipment. Borrowings which are based on variable interest rates are exposed to interest rate fluctuation risk. However, they are hedged through derivative transactions, i.e. interest rate swap agreements.

Derivative transactions consist mainly of foreign currency forward exchange contracts which are used for hedging the risk of exchange rate fluctuations in trade receivables and payables denominated in foreign currency, and interest rate swap contracts which are used for hedging the risk of interest rate fluctuations in borrowings. As hedging policy, appropriate hedge instruments shall be selected per risk category. Evaluation of hedge effectiveness is performed by comparing cumulative fluctuation of market value of hedged items or of cash flows with that of market value of hedging instruments or of cash flows.

#### (c) Risk management system associated with financial instruments

1) Credit risk management (Risk of default on payment by counterparts, etc.)

The Companies manage payment term and payment balance by customer in order to control and mitigate credit risks for financial difficulties in accordance with the Companies' credit management policy.

When dealing with the derivative transactions, the Companies only trade with highly rated financial institutions to minimize the counterparty's credit risks.

2) Market risk management (Risk of exchange rate and interest rate fluctuation, etc.)

The Company utilizes foreign currency forward exchange contracts to hedge the risk of exchange rate fluctuation. Depending on the situation of foreign currency exchange market, the Companies use foreign forward exchange contracts for trade receivables denominated in foreign currency. On the other hand, interest rate swap agreements are utilized to hedge the interest rate fluctuation risk associated with corporate bonds and borrowings.

The Company periodically reviews the fair values of financial instruments, such as marketable securities and investment securities, and the financial position of the issuers. Based on this information and relationship with the issuers, the Company evaluates whether the securities should be maintained or not. Derivative transactions are performed and managed in accordance with the Companies' credit management

policy.

3) Liquidity risk management on financing activities (Risk of inability to repay on due date)

The Company, as parent company, manages fund of the group companies. The finance department prepares and updates financing plans periodically based on the group companies' necessity and keeps a certain amount of cash in hand for the purpose of liquidity risk management.

#### (d) Other supplementary in the fair value of financial instruments

The fair values of financial instruments are determined at the markets prices or reasonable estimated fair values when the fair values are not available. The estimated fair values will fluctuate due to variety of factors and assumptions.

Information regarding non-marketable other securities, for which it is extremely difficult to determine the fair value at March 31, 2015 and 2016 is shown as follows:

#### Notes:

(1) Cash and time deposits

The carrying amount approximates fair value due to the short maturity of these instruments.

(2) Trade notes and accounts receivable

The fair value of trade notes and accounts receivable is based on the present value using appropriate current discount rate decided upon the recovery term and the credit risk.

- (3) Investment securities and other securities
  - The fair value of investment securities is based on quoted market price.
- (4) Trade notes and accounts payable
  - The fair value of trade notes and accounts payable is estimated based on the present value of future cash flows using appropriate current discount rate which is decided upon recovery term and credit risk too.
- (5) Short-term borrowings

The carrying amount approximates fair value due to the short maturity of these instruments. Long-term borrowings within one year are recorded in long-term borrowings.

(6) Long-term borrowings

The fair value of corporate bonds and long-term borrowings are based on the current discounted interest rates which are borrowed with the same conditions. Corporate bonds and long-term borrowings with the maturity term within one year are involved.

#### 21. Segment Information

#### **Business Segments**

The businesses of the Companies are divided based on the similarity in products and service categories into five classifications whose financial information is separately available for the management to make decisions regarding management resources allocation and evaluate each business segment results regularly.

The Companies primarily operate in the following five reportable business segments:

(1) Electric Wire operations:

Bare conductors, rubber, plastic insulated wires, power distribution equipment, bus, overhead transmission line

(2) Power System operations:

Electric power cables, electric power appliance, power cable constructions

(3) Magnet Wire operations:

Magnet wires

(4) Communication System operations:

Optical fiber cables, communication cables, communication accessories, optical components, connector, communication cable construction, network solution system

(5) Device operations:

Wire harnesses, seismic isolation, vibration controlling and noise controlling devices, copier and printer device

Since EXSYM Corporation was merged with SWCC Showa Cable Systems Co., Ltd. on October 1, 2015, power distribution equipment, bus, overhead transmission line which were included in power system operations before have been transferred into electric wire operations from this fiscal year. Under the new business segments, the business segment information for the year ended March 31, 2015 has also been changed.

The business segment "Others" which is not stated as reportable business segment, includes the businesses of superconducting wires, logistics and other operations.

Reportable segment income (loss) is evaluated based on operating income or loss. The intersegment sales and transfers between segments are made at arm's length prices.

The business segment information for the Companies for the year ended March 31, 2015 is summarized as follows:

#### Independent Auditor's Report

The Board of Directors SWCC SHOWA HOLDINGS CO., LTD.

We have audited the accompanying consolidated financial statements of SWCC SHOWA HOLDINGS CO., LTD. and its consolidated subsidiaries, which comprise the consolidated balance sheet as at March 31, 2016 and the consolidated statements of operations, comprehensive income, changes in net assets, and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. The purpose of an audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of SWCC SHOWA HOLDINGS CO., LTD. and its consolidated subsidiaries as at March 31, 2016 and their consolidated financial performance and cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

#### Convenience Translation

We have reviewed the translation of these consolidated financial statements into U.S. dollars, presented for the convenience of readers, and, in our opinion, the accompanying consolidated financial statements have been properly translated on the basis described in Note 4.
