

Information of exhibition "SEMICON Taiwan 2025"

【Topics】

This year's exhibition will bring together over 1,200 leading semiconductor and technology companies, with more than 4,100 booths and an expected attendance of over 100,000 industry professionals, making it one of the most influential semiconductor events in the world.

SEMICON Taiwan 2025 will highlight the industry's most critical topics, including AI chips, advanced packaging, 3DIC, chiplets, FOPLP, heterogeneous integration, silicon photonics, quantum computing, and HBM. The exhibition will also cover vital issues such as supply chain resilience, green manufacturing, geopolitical challenges, and talent development, showcasing Taiwan's strategic role and leadership in the global semiconductor value chain.
